I've spent 40 years studying the golf swing and I feel that this method is as good as anything I've ever seen and it's one I'll be sticking with. The DVD is far more informative than the excellent instruction in Golf International; pictures really do speak a thousand words. Overall it's a superb piece of teaching.

As a PGA Professional myself I would have to say the "Ripple Effect" Bunker Lesson DVD is the best I have ever seen, simply enough for a beginner to understand and detailed enough for advanced players to learn from.
